OVERVIEW

RAMASAT

The ROYAL EXPERIENCE

Ramasat is the modern evolution of a historic British perfume house, originally founded in 1971.

Acquired and reimagined by an Emirati group specializing in perfume design and creation, the brand now bridges British refinement with the richness of Arabian fragrance traditions, crafting perfumes that embody timeless sophistication, bold creativity, and cultural harmony.

The ROYAL SCENT REIMAGINED

The scent of Ramasat draws its elegance from the tradition of British perfumery, where subtlety, refinement, and timeless sophistication have long reigned supreme.

Rooted in this heritage, Ramasat builds upon the classic structures of British fragrances, light floral bouquets, crisp green notes, and a gentle whisper of woody sophistication.

The ROYAL SCENT REIMAGINED

But what truly sets Ramasat apart is its infusion of Arabian opulence - a bold and enchanting layer that transforms the familiar into something extraordinary.

The result is a scent profile that feels both regal and adventurous. It is a harmonious fusion: familiar enough to feel timeless but with an undeniable edge that only Arabia can bestow.

Ramasat is a story told through scent - a tale of cultural exchange, refinement, and boldness.
